INFORMATION DISCLOSURE STATEMENT

Sir:

The Examiner is requested to consider the documents listed on the enclosed Form PTO-1449, and return a copy of the form with each document initialed to confirm that it has been considered in connection with the patentability of claims 68-85 presented in the Amendment of June 21, 2004. Copies of all of the listed documents are enclosed.

The listed documents are from a number of sources. First, they include parent U.S. Patent No. 6,416,319, and U.S. Patents No. 6,162,055 and No. 6,343,933, which claim priority from the same provisional applications as the '319 patent. They also include the International Preliminary Examination Report in PCT/US00/27643, corresponding to the '933 patent.

The documents from that litigation listed on the Form PTO-1449 include:

1. Discus Dental Inc.'s Answer to Second Amended Complaint; Counterclaims; and Demand for Jury Trial. The Examiner's attention is directed particularly to the fifth defense alleging inequitable conduct in the prosecution of the application that issued as the '933 patent.

If the Examiner would like copies of any other materials from this litigation, the applicants will endeavor to provide them. That is, the applicants have made every effort to provide the Examiner with all relevant litigation materials, without overburdening the record with an undue amount of information. However, if any of the materials provided by the applicants refers to other materials that the Examiner would like to review, the applicants will make every effort to provide the Examiner with any information he believes could be relevant to his examination of the present application.
